

**CROWN SOLUTIONS**

**AQUA**  
VISTA

*A New Leader in*  
**Continuous Monitoring of  
Cooling and Boiler Water Systems**

# AQUA VISTA

Introducing the latest, most flexible technology for **continuous monitoring** of cooling and boiler water systems from Crown Solutions. The new AquaVista is designed to provide the operator with data in a format that easily and rapidly supports the control change decisions. Actionable data is presented in 'real time' at a glance. Security of the data and programming is accomplished with simple password protection that is locally selectable. Periodic reports are easy to setup and even easier to adjust on the fly, truly automating the reporting process!

- **Conductivity, pH, and ORP monitoring**
- **Online corrosion monitoring**
- **Inventory control and alarms**
- **Data Logging**
- **Remote monitoring**
- **Auto emailing for alarms and data**
- **Data Trending software included**
- **Live View for Operator interface**
- **Auto-polling for automated monitoring and data logging**
- **Operator entered data available**
- **Control up to 4 Towers at once**
- **Web Browser Accessible**
- **LAN Accessible**
- **Built-in Ethernet with user definable static IP address**
- **Up to 14 Analog Inputs**
- **12 Digital Inputs & 10 Relay Outputs**
- **Works with Proprietary Software**
- **4 Line, 20 Character Backlit Display**
- **Easily Upgradeable with Plug-in Modules**
- **Flexibility Allows You To Combine Multiple Boilers and Cooling Towers in One Controller**
- **NEMA4X, IP65 Fiberglass Enclosure with Dual Locking Latches**
- **CSA / CE / UL Rated**
